

McNAMARA • SALVIA
STRUCTURAL ENGINEERS

HOTEL EXPERIENCE

McNamara • Salvia carries the distinction of working with mid- and high-rise hotel projects across the United States. Our hospitality portfolio ranges from our home region of New England to southern Florida to the Southwestern cities of Las Vegas and Phoenix. For such buildings, our structural engineers face a number of design challenges, such as tower columns that do not align with the usages in the podium or link-beam details at high volume areas in lobbies, all of which require cost-effective innovations.
