

McNAMARA · SALVIA  
STRUCTURAL ENGINEERS

## MIXED USE

Besides being the Structural Engineer-of-Record for the past ten years at Fenway Park, our staple experience in retail, hotel, high-rise residential, parking, office, and entertainment venues enables us to create any combination of design. Our experience is to the extreme incorporating stadium theaters, aquariums, and even the first indoor ski facility in North America into the building type.

Our mixed use portfolio includes such buildings as Fan Pier Parcel F on the Boston Harbor waterfront, Crosstown Center at the juncture of the Roxbury and South End neighborhoods in Boston, the Belmar Shopping District in Lakewood, Colorado, the Rockville Arts and Innovation Center in Rockville, Maryland, and 45 Province Street in the heart of downtown Boston.
